For more details check the JLG Technical Specification Guide or ask your local JLG representative.

Range of Quick change platforms

A family of platforms that can be changed without the need for tools to suit your specific needs.

Easy to load and transport

A sliding mechanism allows for easy loading. A tilt back system that allows larger models to roll through standard doorways.

Strong Anodised Mast

A mast that is more rigid for less deflection and sway and guides that need no lubrication.

Excellent manoeuvrability

The six-wheel design gives enhanced manoeuvrability and large 25 cm wheels provide ease of movement.

Automatic Battery Charger

A fully automatic charger that determines when to shut off during the charging period.

Model 15AMI - without outriggers

A push around lift without the need for outriggers. Ideal when working in confined areas.
